## Professor James L. Skinner joins *The Journal of Chemical Physics* editorial team

*The Journal of Chemical Physics* is pleased to welcome Professor James L. Skinner as an Associate Editor beginning 1 July 2009. With an impressive list of publications and awards, Professor Skinner brings a great deal of expertise to the journal.

## RESEARCH HIGHLIGHT

### Modeling light-driven proton pumps in artificial photosynthetic reaction centers

Pulak Kumar Ghosh, Anatoly Yu. Smirnov, and Franco Nori

A model of a light-induced proton pump in artificial reaction centers is studied. The effect of temperature on proton pumping is also considered. The light-induced proton pump in the model presented gives a quantum yield of proton translocation of about 55%. Thus, results explain previous experiments on these artificial photosynthetic reaction centers.

Announcements

- JCP is #1 in Atomic, Molecular & Chemical Physics (Thomson Reuters, 2008)
- Professor James L. Skinner joins *The Journal of Chemical Physics* editorial team
- JCP Communications now freely available
- JCP Welcomes New Associate Editor, Dr. C. David Sherrill
